

2000 Litre Drying Oven

An addition to our range of Industrial Ovens. These robust and reliable industrial ovens are intended for a variety of drying and curing operations. They operate using reliable solid state switching. Convenient loading and offloading with purpose built push in trolley.

General specifications

Internal Volume	2000L
Temp. variation across chamber	±2.5°C
Temp. variation at a point	±0.3°C
Internal Dimensions	W1182xH1125xD1801mm
External Dimensions	W1493xH1268xD1983mm
Shelf positions	Fixed trolley
Shelves supplied with unit	6
Approx net weight	414kg
Electrical connection	380V/50Hz/3/P/N/E
Power rating @230V	12000W

Features:

- *Doors mounted on robust hinges for effective sealing.
- *Long lasting silicon door seal.
- *All bodies are constructed from corrosion protected mild steel with an epoxy powder coated finish.
- *Ideal for applications where a large volume of product is required.
- *Electronic P.I.D temperature control with digital indication of set and process value.
- *High accuracy pt 100 temperature sensor.
- *Solid state control relay for optimum reliability.
- *Operating temperature ambient +7°C to 250°C.
